

## BCGP Blockwalking Script

Hello. My name is \_\_\_\_\_, and I am with the Green Party. **Have you heard about the Green Party?** We are actively involved in the PGA petition effort locally, and in 2000 we ran Ralph Nader for President. Greens are an alternative to the two major parties, and while they busy raising big bucks, we are going door to door to speak with the people. We are meeting with people like you about important political issues that affect your pocketbook and your livelihood. **What political issues are you concerned about?**

**Did you receive our flyer a week ago or so?**

Our flyer talks about our belief in justice and fairness. We work on issues such as **affordable health insurance for all residents, a living wage, clean environment, renewable sources of energy, and equal opportunity for everyone.** Realistically, as long as elections are controlled and financed by big corporations like Enron, the people's priorities will always come in last. That's one reason why many people don't even bother to get out and vote.

I'd like to give you **3 reasons to vote for the Green Party candidates this fall**, even if you don't usually vote.

**#1 Environment #2 Building a people-focused political party, and #3 An end to corporate corruption and the souring economy.**

We believe we can find a way to balance the needs of people, business, and the planet. We face challenges right here in your neighborhood, like the air you are breathing, protecting your water, and efficient transportation. A people-focused party leads to a government that works for you, rather than the corporate campaign donors. It is urgent that we address the souring economy and the corporate corruption that is at the root of so many of today's problems. The current system protects corporate crooks, like the Enron's and the World Com's; all the while the people and our democracy suffers. The Green Party is working hard to do something about it!
