

Congratulations on your efforts to get the Green Party on the AZ Ballot!

I am glad to have been able to participate in your petition drive.

Now run for office!

Who is Kat?

I am a member of the Green Party of Texas, have served on our party's State Executive Committee, as State Co-Chair and as Spokesperson for the National Women's Caucus of the GP. I have served as a consensus facilitator for the Green Party at all levels and for other organizations, groups, and coalitions, including Clean Money San Antonio, our local public-financing coalition. I currently work as a bookkeeper for a homeless/marginalized services non-profit. In 2007, I became the first Green to run for City Council in San Antonio.

The dollar has lost 10% of its value since Xmas.

Oil prices have doubled in the last 2 years.

Gas prices are breaking pocket books.

Food prices have increased 7.5% in the last year and will continue to rise because of transportation costs.

Environmental laws and tribal treaties are being overridden en masse by Executive Order to build our **new Great Wall of Apartheid from Mexico** - it didn't work in Germany, it won't work in Palestine, and it sure won't work here.

A chunk of ice the size of New Jersey just fell into the ocean off the ice shelf of Antarctica.

How long before coastal residents the world over have to move inland to escape the rising ocean levels?

Texas is about to build **seven new Nuclear Power Plants** along with several new Coal-Powered Plants.

We must run for office at all levels all over the country.

If we don't do it - who will?

Time has run out to wait for someone else to act. We must Act NOW!

Last year I ran for public office last year and found that as a candidate, you have more accessibility to larger audiences and opportunities to speak about issues that other candidates can't/won't talk about or give straight answers to. By doing so you can get people interested, excited and involved.

Use the Public Financing system you have in AZ to run for ANY office you can.

While you're at it, **register Greens** to keep ballot access in AZ and **most of all...**

HAVE FUN!

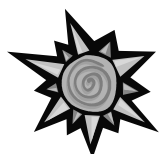

Your power is in your vote; use it while you still can!

save the earth then watch cartoons

"We need to unite across the unprivileged categories because we are conscious of suffering, but we also need to unite from within privileged categories to remedy the suffering, to change the system for all. In fact, if we re-establish the mothering model and equip ourselves with the

logic of the gift economy, we will give attention to others' needs and satisfy them, not only at an individual, but at a social level. The true overturning is not to put one category in a privileged position in place of another, but to put into effect the general norm-al mother-based other-orientation that bridges and breaks down categories altogether."

- Genevieve Vaughn, [For-Giving](#)
